

Brief Curriculum Vitae

Prof Lewis Ziska
University of Columbia

Dr. Ziska is an Associate Professor in the Environmental Health Sciences at the Mailman School of Public Health at Columbia University. After graduating from the University of California, Davis, he began his career as a Smithsonian fellow, and then took up residence as the Project Leader for global climate change at the International Rice Research Institute in the Philippines before 20+ year career at the USDA's Agricultural Research Service. He has worked primarily on documenting the impact of climate change and rising carbon dioxide levels on: Crop selection for CO₂ responsiveness to improve production; Climate and agronomic pests, including chemical management; Climate, plant biology and public health impacts from pollen to medicines.

Dr. Ziska is a contributor to the 2014 International Panel on Climate Change report (Food Security Chapter, https://www.ipcc.ch/site/assets/uploads/2018/02/WGIIAR5-Chap7_FINAL.pdf); the 2014 and 2018 National Climate Assessment (Public Health Chapter and Air quality chapter respectively); and, [*The Impacts of Climate Change on Human Health in the United States: A Scientific Assessment.*](#)

His most recent book is: *Agriculture, Climate Change and Food Security in the 21st Century: Our Daily Bread*, through Cambridge Scholars publishing.
